General Information

OXI-PHOS can be applied to potatoes, canola, sugar beets, most other vegetable and row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, range grasses, and most other crops.

For Soil Applications Only.

OXI-PHOS is processed with agents aiding in spray tank wetting and dispersement, therefore it will disperse in water with minimum agitation.

User should seek the advice of the county agricultural representative or a professional agricultural consultant in order to determine the appropriate rates and frequency of product use.

Do not mix and apply with copper and/or tin based fungicides.

Precautionary Statements

Do not ingest. Harmful if swallowed.

Store away from other food and feed products.

Avoid inhalation of mists. If vapours exceed acceptable levels, use OSHA/NIOSH approved respirator or mask for protection against pesticide dusts, mists and vapours.

Avoid contact with eyes, skin and clothing. Causes irritation. Wash thoroughly after handling. Wear clothing consistent with good practices for handling and applying pesticides. Wash clothing before reuse.

Rubber or impervious gloves recommended.

Avoid contamination of domestic or irrigation water supplies, lakes, streams and ponds.

Note In all cases it is recommended that a small scale test for compatibility before mixing a full batch.
