

ETIGRAN 15% BORON

SPECIFICATIONS

Guaranteed Analysis:	Boron, weight %	15%
Bulk Density:	lbs. per cubic foot.....	55 to 65
Particle Size:	Size Guide Number [SGN].....	250 to 280
Physical Appearance	White Granule	

PACKAGING

25 Kg Bags, 1000 Kg bags

AGRONOMIC CONSIDERATION

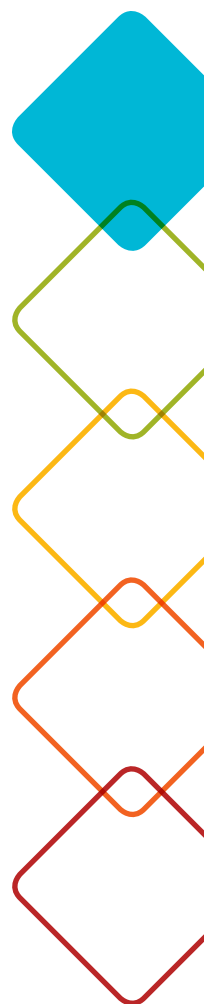

A highly plant available grade of granular boron. 100% water solubility to provide excellent plant availability. Compatibility with all fertilizer blends. Product analysis of 15% boron for use in blends. Will supply immediate availability of boron and extended plant needs as well.

GENERAL RECOMMENDATIONS

Use 6.67 lbs. of Etigran for every pound of boron required to meet needs of the crop.

MANUFACTURING CONSIDERATIONS

Normal bulk blending procedures. Use 15% boron to match analysis where higher amounts of boron are needed. Can be broadcast, banded or seed placed.
