AGRONOMIC CONSIDERATIONS

Nexus Copper 7.5% EDTA is a fully chelated solution of copper EDTA and is recommended for the prevention and correction of copper deficiency in crops. The product is for soil application in combination with liquid fertilizer blends.

GENERAL RECOMMENDATIONS

Use rates vary from 0.5 Litres to 1 Litre/acre, depending on copper deficiency.

MANUFACTURING CONSIDERATIONS

Best practice is to add the Nexus Copper 7.5% EDTA into the blend after the UAN, then the phosphate product, followed by the liquid Sulphur. Do not exceed the Sulphur product by more than 10% of the total blend.
